Mexico has a new law which provides
that persons who obstruct the mails or
try to wreck railway trains shall be
hung. A boy who placed stones on the
track and caused a wreck was executed
Sunday near the city of Mexico. We
ought do worse than to follow our
neighbor's example.

Congressman Powers of this district
expressed a general feeling when he said,
in being asked the other day by a New
York reporter for his opinion about a
third term for President Cleveland: "I
don't doubt that President Cleveland
could be elected for third term provided
the elective franchise was transferred
from the United States to England. He
could never get it on the vote of the
American people."

Comptroller Bowler of the treasury
department at Washington, a bumptious
little known functionary, has been
stealing to long arguments on the sugar
bounty claims, but will not render his
decision thereon for some time yet. He
takes it upon himself to say that congress
didn't know what it was about when it
passed the law, and refuses to pay the
bounty. Finally the southern and western
sugar producers, to whom the bounty
is a matter of large concern, got him to
call their attorneys a hearing.

It is predicted that within a few years
we shall travel at the rate of 150 miles
an hour, or about three times as fast as
now. This result will be brought about
by the application of electricity to rail-
way service. The late consolidation
of the interests of the Baldwin loco-
motive works of Philadelphia and the
Westinghouse electrical works of Pitts-
burgh—each the greatest concern in its
line in the country—is believed to be
or the purpose of attempting something
notable in the direction of applying
electricity in a large way to drawing
railway trains.

Certain of our Christian friends who
possess equities of redemption or other
right, title or interest in and to sundry
reserves, fonts of type, composing stones,
alleys, shooting-sticks and other more
or less deadly weapons, including collec-
tions of epithets suited to the incite-
ment of libel suits, are pained beyond
expression because some of their brethren
in the press suggested that the re-
cent banquet of the Fish and Game
league at Hon. N. W. Fisk's home on
the LaMotte was intended to aid him in
his campaign for the Lieutenant-governorship
two years hence. Why they should
bow thus we cannot understand. The
fence is worth having—at least, no one
who could get it was ever known to re-
use it—and Mr. Fisk may without dis-
credit employ all legitimate means to
secure it. If he chose to entertain this
organization for the sake of increasing
the number of his acquaintances or giving
pleasure to old friends, he had a per-
fect right so to do.

Judge William Lawrence of Ohio,
resident of the National Wool Growers'
association, says in a letter to the Industrial
Record:

At the next session of congress Pres-
ident Cleveland will of necessity ask
congress to pass a bill to increase the
bounty. Now, the wool growers will
insist that any bill for that purpose shall
have to them duties on wool as ample
protection for their industry as is the
protection now given by law to manu-
facturers of wool, cotton, iron, etc."

The Record, commenting editorially
upon the judge's communication, ex-
presses doubt as to whether the produc-
ers of wool will get any help from the
manufacturers, who, the Record
says, have adjusted their business to a
tree-wool basis and will on that account
be slow to favor a change. Having pro-
tection for themselves, the manufacturers
are not likely to borrow much trouble
about the growers. Judge Lawrence de-
clares, and with reason, that a law which
thus discriminates is "infamous."

THE WROUGHT IRON RANGE CO.
[From the Essex County (N. Y.) Republican.]

Superintendent D. L. Carter and his
corps of traveling salesmen representing
the St. Louis Wrought Iron Range Co.
of St. Louis, Mo., will make Middlebury,
Vt., their headquarters for the next few
months.

Their coming may be welcomed by any
town, as they are all men of ability and
strict business integrity. Settling in a
place with their families for a number of
months, as they do, they identify them-
selves at once with the interests of the

town, and make warm friends wherever
they go.

The result of their canvassing in Essex
and Warren counties shows they are
carrying something that people want—
about 680 ranges have been sold by them
in their three months' stay here. While
making money, they do not hesitate to
spend it, and this is the kind of people
who are helping on better times.

COUNTY AND VICINITY NOTES.

Harmen E. Buckman of Vergennes has
been sent to the house of correction for
three months for stealing a boat from
Charles Buckman, his father.

The Lincoln Lumber company of Lin-
coln has rebuilt its dam and penstock and
resumed work Thursday afternoon. Nothing
has been done as yet toward replacing the bridge carried away. The
damage to property in the town of Lin-
coln is estimated at fully \$10,000.

The Rutland Herald of Wednesday has
the following regarding a case that has
made some talk in Salisbury: "The case
of Thomas B. Winn against John B.
Quinn, both of this city, for an assault
and battery which is alleged to have been
made on the plaintiff at the Mountain
Spring hotel, Lake Dunmore, July 17, was
brought before Justice Cummings
yesterday. Winn was one of Landlord
Quinn's bell boys. Mr. Quinn was found
guilty and \$200 damages and costs were
awarded to Winn, the amount for which he
sued. Mr. Quinn appealed and fur-
nished bail."

THE BREEDERS' MEETING AT RUTLAND.

FOUR DAYS OF FINE RACING ASSURED.

The eleventh annual meeting of the
Vermont association of Road and Trotting
Horse Breeders, which will begin
next week Tuesday at Rutland and con-
tinue four days—Aug. 27, 28, 29 and 30—
promises not only to eclipse all previous
efforts of this successful organization,
but to put similar meetings in other States
to the blush.

The stakes are liberal, the entries enormous,
and many of the most famous flyers in New York, New England and
Pennsylvania will contest for the \$6300
offered in stakes in the thirteen events.

The new track at Rutland is today one
of the finest and fastest regulation half-
mile tracks in New England. It has
been entirely rebuilt this season.

On Wednesday, Thursday and Friday
mornings a special train will leave Middlebury at 8:30 o'clock and reach Rutland at 9:45. On the evenings of those days a special will leave Rutland at 7:15
and run to Middlebury, arriving here at 8:15.
The morning train will leave Ticonderoga at 7:30 and connect at Leeks-
ter Junction with the train for Rutland; and at night the train for Tl. will be held at
the Junction till the arrival of the Rutland special. Tuesday night the freight leaving Rutland at 8:40 will have a passenger car attached, and will take passengers for Middlebury and intermediate stations. Round-trip tickets from Middlebury and stations between here and Rutland and also from stations on the Addison road will be sold at reduced rates. The cost of a ticket from Middlebury to Rutland and return will be \$1.05.

REV. D. W. LYMAN ORDAINED.

Rev. D. W. Lyman, the new pastor of the
Middlebury Baptist church, was or-
dained on Wednesday. The council met
at the church at 2 o'clock in the afternoon
and the ordination service was held in
the evening. The church was well
filled on both occasions, and everything
passed off very pleasantly.

Rev. Dr. Thomas Call, State mission-
ary, was chosen moderator of the council
and Rev. E. A. Berring of Brandon
clerk. The following churches were
represented: Addison, Panton, Vergennes, Monkton, Charlotte, Bristol,
Cornwall, Whiting, Brandon, Rutland,
Wallingford, Windsor and Burlington.

After the organization had been effect-
ed Rev. D. W. Lyman, the newly-chosen
pastor, was called upon to tell what his
articles of belief were. He explained
his ideas in good shape and stood a
searching examination from the distin-
guished theologians present. The council
of the churches at 3:15 o'clock voted
that Mr. Lyman was acceptable, and he
was therefore chosen pastor of the
church. The exercises of the ordination,
which it had been intended to hold in
the afternoon, were then deferred until
night.

At 7:30 o'clock in the evening the reg-
ular exercises began, with music by a
choir consisting of Mr. William Richardson
and the Misses Winifred, Ruth and
Bertha Richardson of Brooklyn, N. Y.,
H. C. Jones of West Cornwall, F. C.
Lovett of Brandon, E. L. Kellogg of
Salisbury and Misses Nellie Dewey and
Mary Grays of Middlebury, who had
also furnished the music in the afternoon.

Mrs. G. D. Miner of Middlebury officiated
at the organ in her customary excellent
fashion. The services were opened with
an invocation by Rev. E. W. Potter of
Windsor and then there was scripture
reading by Rev. H. T. Slocom of Char-
lotte. Rev. T. H. Archibald, D. D., of
Middlebury offered prayer and then
Professor M. H. Maynard of Colgate
university, Hamilton, N. Y., delivered
the ordination sermon. Prof. Maynard
took for his theme "Prayer," and delivered
a sermon which held the audience in
close touch with him till the end. The
ordinating prayer was made by Rev. S. H.
Archibald of Wallingford and the charge to
the candidate was given by Rev.
Gibbs Braislain of Rutland. The right
of fellowship was extended by Rev.
J. Kinzie of Bristol. He was followed by
Rev. Dr. W. S. Roberts, D. D., of
Burlington, who delivered the charge to the
church and gave the parishioners some
very excellent advice as to the relations
which should exist between the pastor
and the church and their mutual obliga-
tions. He was listened to with the closest
attention.

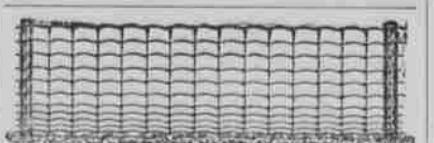

Rev. Charles F. Noble of Middlebury,
pastor of the Methodist church, followed
with an address of welcome to the place
from the people of the town. Rev. Mr.
Noble made an excellent address and a
very good impression on the audience,
leaving it understood that the people of
Middlebury, without regard to denomina-
tional differences, were glad to see and
make welcome the new pastor of the
Baptist church. The exercises were

closed with the benediction by Rev. Mr.
Lyman. Rev. Mr. Lyman comes here
with the best of recommendations. He
is a graduate of Colgate university at
Hamilton, N. Y., in this year's class and is
very highly spoken of by the profes-
sors in that institution.

AMAN CAN LIVE WITHOUT AIR

Almost as easily as a wire fence can with-
out ELASTICITY. If the man was con-
fined in an air tight room, he would linger
there a little while, just as a fowl does, sup-
ported by the extension of elastic
wire. The aluminum applied with a
wrench to the end jackets, made to give
a few more gashes before the final collapse,
the OLIVER STEEL WIRES is wired so
strong as ELASTICITY. It has a
continual SPRING, and to its owner often
as pleasant as May. It is made by the
